TO WHOM IT MAY CONCERN:

Re: Rural Municipality of Antler Support for Energy East Pipeline Project

The RM of Antler No. 61 Council would like to express its support for the development of the TransCanada Energy East Pipeline. At our recent council meeting on Tuesday, June 9th, 2015, the RM Council passed the following resolution in support of the Energy East Project:

"That the Rural Municipal Council of Antler No. 61 agree that a letter of support for the Energy East Pipeline Project be written, indicating that the municipality indeed wants to see this project proceed and be completed"

Carried.

Council feels that the pipeline will bring job growth, an increase in economic activity for local businesses, an increase in tax revenues, as well as lower the use of ground transportation of crude oil on our highways and municipal roads.

The RM of Antler Council fully supports the development of the TransCanada Energy East Pipeline project. The benefits that come with the pipeline are in the best interest of the surrounding municipalities.

Sincerely,

Melissa Roberts
Municipal Administrator
