TransCanada - Energy East Pipeline Project

TO WHOM IT MAY CONCERN

Re: Energy East Pipeline Project

Please be advised that the Council of the Town of Carberry is fully in support of this extensive project moving forward.

The safety of transporting oil products via pipeline far surmounts the possible safety and liability issues that can arise during the transportation of these products via rail or highway. Our community is very concerned about issues and/or accidents that could happen such as what took place this past year in Lac Megantic, Quebec. The environmental safety nets that are now in place for the construction of pipeline far surpasses the possible dangers of trucking or transporting via rail these same products, therefore, we fully support the initiative of the construction of the Energy East Pipeline.

If you have any questions, please feel free to contact me at 204-834-6600.

Sincerely

Sandra Jones, CMMA
CAO
