To Whom It May Concern:

RE: Energy East Pipeline Project

The Town of Wapella would like to notify TransCanada that we fully support the extensive Energy East Pipeline Project.

The project will positively impact the country by supplying jobs, increasing tax revenue, as well as increasing economic growth. This project will create a safe zone for communities in which the trains speedily run directly through while hauling crude oil; it will also lower the negative impact heavy trucks have on highways and grid roads which in turn will not only save the highway and grid roads, but it will also save the country money due to less maintenance. The amount of pollution associated with hauling oil via ground transportation will greatly decrease when the Energy East Pipeline Project is implemented.

Due to all of the positive affects this project has on our country, the Town of Wapella fully supports the initiative to construct the Energy East Pipeline Project.

Thank you,
